Education

Jan 2018 | **Honours Bachelor of Technology (BSD) in Software Development, Seneca College, GPA: 4.0, Toronto, ON.**
Aug 2021

Work Experience

- May 2020 – **Software Developer Co-Op, Portable Intelligence Inc., Markham, ON.**
Aug 2020
 - Created a UDP protocol based POC of an integration layer to Artemis, a computer vision system. Successfully demonstrating it's value resulted in a whole new business avenue and revenue stream for the company.
 - Automated software updates, allowing clients to update our software without on-site visits from our employees, saving hundreds of man hours.
 - Operated in Agile for timely product releases using Azure, Windows Server 2012 and IIS.
- Aug 2019 – **Software Developer, Nexus Health Inc., Toronto, ON.**
Present
 - Implemented a computer vision system to automatically pull medication information from prescription bottles, reducing data entry times by 95%.
 - Automated CI/CD pipelines for all platforms, reducing QA work by 50% on each build. (React Web App, React Native iOS, React Native Android and AWS serverless dotnet)
 - Created first market ready minimum viable product, leading a team of three.
 - Used react native and AWS to create a full stack system on track to be patented.
- Aug 2019 – **Junior Software Developer, Mixto Card Conceptions Inc., Mississauga, ON.**
Jan 2020
 - Developed an Angular app facilitating a multi role, highly customizable insurance portal.
 - Consulted for NoSQL architecture based on industry standard design patterns.
- Mar 2019 – **Research Assistant, Seneca College, Toronto, ON.**
Jul 2019
 - Conducted data and process analytics research for Ample Organics.
 - Visited on-site facilities to create process flows for new and anticipated use cases.

Skills

Languages C/C++, C#, Java, Python, JavaScript/TypeScript, HTML/CSS
Frameworks Android (Java), Angular (TypeScript), .NET (Core and Standard), OpenCV, ReactJS, React Native, NodeJS, Nginx
Databases MongoDB, DynamoDB, MySQL, PostgreSQL, MS SQL Server
Other Object-oriented design, Data structures and algorithms, Computer Vision, Shell scripting, RESTful APIs, Git, Github CI/CD, AWS Serverless

Projects

Capstone Project, Angular, NodeJS, MongoDB, Git/Github.

A Customer and Order management system for a green cleaning and stitching business
<https://capstone.arshwaraich.com>

NexHUB, *React Native*, *AWS Amplify*, *Figma*, *Git/Github*.

A Cross platform (iOS/Android) application for managing a user's health data.
